***Claim Rejections - 35 USC § 102***

Claim 10 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Mullet et al.

See hinge assembly 51,51', pin member 326,226 (column 12, lines 10-12), and "collars" 228. The pins "extend through the hollow knuckles of the center hinges 51 positioned along the length of the panels 40-43", column 12, lines 10-12, there being a plurality of such hinges, column 7, lines 57-60. Fig. 1 clearly shows these hinges disposed as specified.

Claim 10 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ballyns et al.

See spaced hinge elements 136,138, hinge pin 150, and "collars" in the form of wheels 112 at each end of each hinge pin.

***Claim Rejections - 35 USC § 103***

Claims 4,8 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mullet et al.

The threaded collar 228 is the full mechanical equivalent of a collar having a set screw. It would have been obvious to use such a collar with a set screw so as to ease assembly by laminating rotating the collar 228.

***Allowable Subject Matter***

Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 13-15 are allowed.

***Response to Arguments***

Applicant's arguments have been fully considered but they are not persuasive. The relationship between the hinges 51 and pin 226 is discussed above. It is clear from the Mullet et al disclosure that the rods (pins) are structured and arranged in relation with the hinges 51 so as to serve as a continuous hinge pin. While it is alternatively stated that a cable can be used, such a cable could clearly serve as a hinge pin as it is tensioned and is held within abutting portions of the hinges.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
